## Prosino Borgosesia Rings, world leader manufacturer of spinning rings, launches on the Chinese market the Double Life Ring

Prosino, the renowned Italian spinning & twisting ring manufacturer, presents at ITMA Asia 2014 the Reversible Ring, the **money saving reversible ring** for the first time **available on the Chinese market**.

The Italian technology provided by Prosino, the world ring leader with an annual production of 9 million rings and a presence worldwide since 1946, allows to double the life of spinning rings and to **cut ring renovations cost**.

The Reversible Ring is now available for Chinese frames: producers just have to replace the existing ring with the double life ring with a special aluminium adaptor. This is a smart solution, that allows the spinners to get the maximum benefit at the minimum cost.

**100% MADE IN ITALY**

**NORMAL RING**

**DOUBLE LIFE RING WITH ADAPTOR**

The advantages are the following:

1. **DOUBLE RING LIFE:** the ring can be used twice, since it has two flanges. When the first flange is over, the ring can be flipped in order to use the second one.
2. **UNLIMITED LIFE OF THE HOLDER:** The spinner keeps the holder for a lifetime (no wear on this component).
3. **ENERGY SAVING:** 40% less weight

4. **NO PROBLEM IN THE RING FITTING:** The holder replicates exactly the fitting part of the ring. Absolutely no problem in the fitting on the ring rails.
5. **RUST PROTECTION:** The ring comes with a special carbon coating that protect the rings from rust aggression

The Reversible Rings are available on request for all kind of spinning frames.

**Prosino, we keep the world spinning!**

**Prosino will take part at ITMA ASIA + CITME 2014 at SNIEC - Hall W5 - Stand E09**
